### **EDITORIAL -**

Welcome to the first Military Aviation Review of 2012! Same team of section editors looking forward to receiving all your reports in the new year - it has to be stressed that the magazine relies on these reports, large or small, to make it the success that it is. For those of you who embrace the electronic world you should have received details of how to download your PDFs from MAR's web site at [www.mar.co.uk](http://www.mar.co.uk). If you are an existing internet subscriber then your log in details will not have changed, if you are new then you should have received details on how to log in and download by now. If you have not done so then please contact me at "brianmap@btinternet.com". If you have subscribed to the paper version of MAR you are also entitled to the free PDF version, for those of you who have notified us of your email address you will have been contacted with details of how to access the magazines online, for those who want to access the free PDF edition (this can be done at any time during 2012) please send details of your email address to me (to [brianmap@btinternet.com](mailto:brianmap@btinternet.com)) and I will send you log on details.

Finally, one of the main queries about the PDF version is how do you know when a new issue is loaded to the web site? The answer is that @MAR is loaded on the first of the month following production (ie January is available on February 1st) and MAR is normally loaded between the 15-18th of the month - when a new issue is loaded up there is a news item displayed on the web site and a posting is made to the MAR Yahoo Group. For those newcomers who are not on the MAR Yahoo Group and wish to join, please send a blank email to "[militaryaviationreview-subscribe@yahoogroups.com](mailto:militaryaviationreview-subscribe@yahoogroups.com)" and we will enroll you!

# BRITISH REVIEW

A belated Happy New Year to all readers, hopefully 2012 will deliver a few interesting visitors to our shores, helped by the staging of the summer Olympic games.

You may have noticed that the annual **UK Review**, which is usually included in this month's issue, is missing this year. This is due to recent work commitments but it will be included in the February magazine. So if anyone has details of their local base residents, your reports would be very welcome.

The first Squadron change of 2012 resulted in 207(R)Sqn, part of the 1FTS operating the Tucano T.1 at Linton-on-Ouse disbanded on January 6th.

# OUT OF SERVICE – 1201

## CZECH REPUBLIC

**Frydlant nad Ostravici** – (10.11) L-29 3250 (ex Piestany) can now be found at the airfield, having been swapped for MiG-23BN 9868.

## DENMARK

**Skive** – Saab F-35 A-017 was loaded onto a truck on 30 November 2011 for transportation to the Hjallerup Mekaniske Museum.

## FALKLAND ISLANDS

**RAF Mount Pleasant** – (12.11) Phantom FGR.2 XV409/H is still preserved here, although sadly she is likely to be scrapped in January 2012 due to corrosion issues.

## FINLAND

**Lappeenranta** - The Kaakkois-Suomen Ilmailumuseoyhdistys gained Mi-8T HS-4 on 21 October 2011 when it arrived from Pori. It will also be receiving one of the CM.170s from Pori. This Fouga left Pori on 21 November 2011 bound initially for restoration at Tampere.

## FRANCE

**(33) Cazaux** – To clarify EMOOS, the two aircraft described as being along a sandy track between the Fire School and the runway (Mirage IIIC 85/10-RA, Jaguar A A135) are actually between the school buildings and the runway, not the school training compound and the runway. Location is at the far western end of the airfield, just west of the threshold of the runway. GPS: N44.52661, W1.14637. It also appears that there has been some tomfoolery between the squadrons at Cazaux. Take a look at the roof of the Alpha Jet hangar at N44.53544, W1.13847.
