### **EDITORIAL**

At last - back to a full size magazine! Thanks to all the reports from the UK and overseas we have a full 64 page magazine again and probably another 8-10 pages of Foreign news held over to the July issue. If the magazine was totally on line then those extra pages could all have been incorporated into the June issue!! The overseas renewals for 2013 for the paper version of MAR will see some steep subscription increases due to the huge postage changes inflicted on the sending of mail from the UK - the increase for outside Europe was over 60%.

One of the questions that would have been raised for 2013 was do we keep a paper version of MAR? Fortunately, the change of printers has given us more flexibility to maintain a paper edition while seeing a reduced print quantity for the magazine each year, as more of you change over to the cheaper PDF on line version.

Thanks to all the people who have sent in reports for the June issue (could do with more US reports and for those RAF airfields that Mick has listed in his UK Editorial), please keep them coming in as the European air show season gets into full swing. Remember, if you visit a show please send in a report with as much detail as possible - ie area on the airfield, markings carried, etc. Do not think there will be hundreds of people sending in a report and not send yours - if everyone thought the same then we would not get one report, far better to receive too many than none at all! Finally due to space limitations in this issue we have again had to leave out the credits - next month we will list the credits for the May, June and July issues of MAR.

**COVER PHOTOGRAPH:** The 58 ex RAF Harrier aircraft sold as spares to the USMC in 2011 see in storage at 309 AMARG at Davis Monthan AFB, Az on May 19th this year (Matthew Clements)

**Closing date for the June issue is 08.07.12**

# BRITISH REVIEW

I start this month's review with the news that the eighth **C17A Globemaster III** has been delivered to the RAF on 18.05 during a ceremony at Long Beach, California, USA. Registered ZZ178 (12-0208/UK8/F-245), the aircraft was then flown from Wright Patterson to Brize Norton arriving there on 24.05 as "RRR6680".

The Ministry of Defence have announced publically that number **1(F) Squadron** is going to reform at Leuchars with the Typhoon FGR4 at the Jubilee Airshow which takes place on 15th September 2012.

It has been confirmed by the RAF that the out of service date for the **Hercules C.1/C.3/C.3A** has been extended until October 2013 and the **Tristar K.1/KC.1C.2/C.2A** has been extended until March 2014.

Thank you to all those people from around the country who have sent in reports from their local airfields and bases they have visited during the month, your work is much appreciated. But, what we need, is regular reporters for Marham, Linton-on-Ouse, Valley and Lossiemouth, can anyone help by sending me reports at the address/email printed on the previous page? Also it is now Air Show season, please however small or large the event, please send in the reports, it all helps everyone in time.....Mick Boulanger

It is reported that the primary cause of the damage has been determined to be ingestion of silica gel desiccant bags. The most likely sequence of events was that material was ingested by No.1 engine, which surged and suffered a Low Pressure compressor blade failure. Debris was then sucked into No.2 which then also failed.
