EDITORIAL

As predicted last month, activity in the UK, Europe and, especially, the USA tailed off during July (and will continue in a similar fashion during August too). This means that the back log of Foreign Forces reports and the Credits will finally appear in this issue - my apologies for the delay in printing these reports.

As I mentioned last month, the 2013 Subscription Renewal Forms will be sent out with the September issue of MAR - we will be maintaining the MAR PDF and @MAR rates for 2013 at £20 each and the MAR paper magazine rate for the UK for 2013 will be kept at £40. However, the European rates and for Elsewhere in the World will be increased (see next month for the final new rates) due to the ridiculous increases imposed by Royal Mail this April - the UK increases were bad enough but it now costs £20 more to mail a magazine to Europe than to the UK and £35 more to the rest of the World (and that is only up until next April, when they will, no doubt, increase their rates again!). With this in mind we strongly recommend our overseas readers to change to the PDF version of MAR at £20 - many of our overseas readers have already done so! If you would like to receive a sample PDF of this August issue of MAR to compare the two please email me at "brianmap@btinternet.com" and I will email you a copy. Not only is it considerably cheaper to change to the PDF version but you have other advantages such as a larger picture selection each month, earlier delivery and the PDF version is searchable so you can tie up missing registrations/call signs a lot quicker.

COVER PHOTOGRAPH: New 1 Sqn Typhoon FGR4 ZK326/FB photographed flying a low level training sortie over the Scottish Borders area in early August (Andy Sheppard)

Closing date for the September issue is 08.09.12

BRITISH REVIEW

It was announced at Farnborough on 09th July that Lockheed Martin has signed an agreement authorizing **Marshall Aerospace** to become the world's first commercial company to install C-130 Centre Wing Boxes. Marshall Aerospace is also the first C-130J Heavy Maintenance Centre in the world.

It was announced by BAE Systems that the out of service date for the **Tornado GR.4/4A** is March 2019.

A Squadron change took place on 09th July 2012 when 2 Sqn took over from 617 Sqn on **Operation Herrick** duties. Three Tornado GR.4s headed south bound on 03.08 as "RRR9701-3" and three Tornado GR.4's returned northbound as "RRR9711-13" on 07.08.

During a ceremony in late July **RAF Kinloss** was handed over to the Army and has taken over the name Kinloss Barracks, this will become the home of 39 Engineer Regiment after moving from Waterbeach Barracks..... Mick Boulanger

A visit to Pennant Training Systems Limited located at Staverton Technology Park (near to Staverton Airport) found two ex military Lynx helicopters, one was a wheeled version (ex Royal Navy) and the other was a bare metal cabin. It is known that this company is making a Lynx Maintenance Weapon Trainer (LMWT) of which an original refurbished airframe is being used. It is known that the company has the damaged remains of Lynx AH.9 ZG922 this could possibly be one of the airframes. More information is required to try and find out which airframes are being used if anyone has details please contact me.

Due to runway construction at Villacoublay, this year the Air Force helicopters and small fixed wing aircraft (Epsilon, PC-6 and Grob 120) operated from Creil. The GN and SC participants operated from the heliport Issy les Moulineaux. After the Fly Past all participating helicopters refueled at Issy, before returning home again. Rafales, Typhoons, Mirage 2000s and Mirage F.1s operated from Evreux, like previous years, except for the St Dizier Rafales as the base is 24/7 open for air traffic. The Atlantique 17 23F (21F crew) operated from Lorient.

CEV: The CEV TBM.700 fleet now consists of 106/MN and the following ex EAAT examples - 35/BW, 80/BY and 115/BQ (note the ex ALAT codes have had the initial "A" removed).

The first two Malaysian EC-725s are due for delivery this December. All 12 should be delivered by 2014. Also this month the first NH90 was delivered to French Armed Forces Training Center (CFIA) at Le Luc. The unit will eventually operate 7 NH90TTH and 1 NH90NFH. Currently Eurocopter NH90TTH F-ZWTH is on loan to the unit to train pilots. On 25.7 an Albanian Cougar crashed during a pre-delivery verification flight, killing all 6 on board. It is believed the machine involved was FA-630, but needs confirmation. Albania has 5 AS.532AL on order and a replacement will be built. Bangladesh ordered two AS.365N3 for 'SAR duty' painted in a very aggressive camo scheme. Delivery will be this fall. Also the first Ecuadorian Fennec (of 7 ordered) was spotted. Two regular AS.350B2 were delivered to the army last year (total order for 9 Ecureuils). Georgia had ordered two 'Super Puma's' in 2010, even though Russia was against this deal, it looks like the order is still running. Exact type was not identified.

On overhaul were:-

IWAKUNI MCAS: On June 8th VMA-542 arrived on TDY with AV-8Bs replacing VMA-311 which departed on June 9th. On 23rd July 12 MV-22Bs for VMM-265 at MCAS Futenma arrived here by sea on board the Green Ridge. The aircraft are ex VMM-561 - the unit deactivated on July 6th at MCAS Miramar, California (it will reform later this year as the second MV-22B unit at Futenma) -

OUT OF SERVICE – 1208

AUSTRIA

Salzburg – The Red Bull Sycamore Mk.52 was re-registered from HB-RXB to OE-XSY during May. It is 78+17, painted in RAF colours as XG544.

BELGIUM

Ostend IAP – (7.12) PT-17 (41-8457)/66/N66RW has completed its restoration at Antwerp and is now based here, in USCG colours. It made its first post-restoration flight on 19 June 2012.

CANADA

CFB Shearwater NS – TBM-3S (53610)/23/C-FIMR was flown in from Fredericton on 26 July 2012 to join the Shearwater Aviation Museum. It will be repainted into its original RCN colours.

Victoria IAP BC - (6.12) The BC Aviation Museum is on the airport's east side. It is open daily except Christmas and New Years Day (summer 1000-1600, winter 1100-1500).

NA Harvard composite of parts construction (17116) Douglas C-117D (C-GJGQ) cockpit

The Anson is a composite consisting mainly of a Mk I (fuselage, wings and tailplane). The quoted identity FP846 was found inside one of the engine cowlings which come from a Mk II, together with the engines and landing gear. K8786 has been quoted (by me included) but according to the museum there was no indication of identity on the fuselage; it came without log books from Fort St John. The CT-133 was s/o/s in 1967 and believed scrapped – it came from a farm near Stony Plains Alberta where it had apparently been for years so the identity may well be correct. The Norseman is also a composite. Restoration was initially started on CF-JDG (ex 44-70273) but its fuselage was too far gone and so a replacement fuselage was obtained.

Continued Existence:

6.12 **Sidney BC** (Sabre 23060), **Stephenville NFD** (F-102A 56-1266).

CZECH REPUBLIC

The cockpit of Su-22M4 3313 survives with a private owner. It was seen on a trailer at a show at Pardubice in early June.

Brno/Cernovice – (5.12) Only the following aircraft remain at the technical school here. All are now kept inside.

0704 Mikoyan MiG-21F-13

1308

Mikoyan MiG-21PF

2701 Mikoyan MiG-21MA

3924

Mikoyan MiG-23MF

Frydlant nad Ostravici - (5.12) Two jets are preserved at this small airfield. The MiG-21F-13 came from the technical school at Brno. The L-29 came from Piestany, Slovakia last year.
