EDITORIAL

Thanks to everyone who have renewed their 2013 MAR and @MAR subscriptions so quickly - I think the first renewal arrived about ten minutes after I sent an email to the Yahoo MAR Group advising members that the Septembr PDF issue was available to download from the MAR web site!

For those members who take the paper magazine, just a reminder that the subscription also comes with a free PDF version (basically the same magazine with extra photo pages each month), if you have an internet connection and would like to receive the free PDF then please contact me at brianmap@btinternet.com and let me know your email address that you would like to use to get it with. We do have readers who only take the paper version and then buy the CD version at the end of the year for an extra £7 - this seems a bit strange, unless they have a PC but no internet connection, when they can get it free with their subscription. If you are on of these readers please contact me as above and save yourself some money!

Another full 64 page magazine this month with varied reports from around the UK, Europe and the USA - with the European show season now at an end can I make a plea to any of you who are travelling further afield during the winter months to send in your reports please! I know a lot of you are in the USA at the moment or are going in the near future and Moray would like to hear from you, no matter how small the report may be.

Also, photos for MAR are always welcome and should be JPEGs with a minimum size of 15x10cm at 300 dpi!

COVER PHOTOGRAPH: WTD61 F-4F 37+15 photographed at Manching on September 28th practising for it's display routine for the forthcoming Falities Day (Dietmar Fenners)

Closing date for the November issue is 08.11.12

BRITISH REVIEW

It has been confirmed that the United States Marine Corps will not be operating the former RAF Harrier GR.7A/9/9A/T. 12's. As is already known that out of the 72 Harrier delivered to the USMC, there are 58 fuselages laying in the desert at Davis Monthan Air Force Base. The remaining 14 were thought to be on rebuild at Cherry Point, North Carolina, USA. This is not the case; they are being broken down for spares and produce.

The planned merger between BAE Systems and EADS collapsed on 10.10 due to the United Kingdom, French and German Governments failing to overcome political objections. The £28bn merger would have meant that the Germans and French would have controlled where investment would go to in the future. Would that have been the best outcome for the United Kingdom, time will tell.

The Grob Tutors are finally returning to flying status after the emergency landing of G-BYUB/UB on 23.08. The aircraft are being returned on an airframe-by-airframe basis once the bolts and grub screws retaining the propeller counterweight have been replaced. Mick Boulanger (Military movements is history, now and for our future)

UNITED STATES OF AMERICA

TYPE DESIGNATIONS: Three of the newest types in USAF service have recently been given full military designations, which from now on will be used in these pages:-

C-145A - the PZL M-28-05 Skytrucks which are currently operated by the AFSOC's 27 SOW 318 SOS

C-146A - the Dornier Do328 which are operated by the AFSOC's 27 SOW 524 SOS

U-27A - the Cessna 208 is now using this designation

Both types usually wear civilian style colour schemes with a small USAF serial on the tail.

43-30240/A-72 Piper L-4H (was marked 336430) F-BCPY

Missing was AT-6C (H-4)/F-BJBC, which the reporter was told was in the (unvisited) restoration hangar awaiting an engine from the USA. It is hoped that it will be back to airworthy condition by the end of 2012.

The GPPA will be receiving a TB.30 from Châteaudun. The picture on the website shows 26 but it is not clear if this is the actual aircraft they will be getting.

SV.4A (19)/F-BUAZ was noted flying from the far side of the airfield.

(82) Boulac - (9.12) Ex Colombian PC-6/B2-H4 (1111)/F-GOMB is one of the two of the type based here for parachuting duties. The other (F-GOCC) has no military background. Both are in an all-white c/s.

(29) Brest - (9.12) SA.321G 134 is preserved inside the naval dockyard on the east bank of the river, just north of the bridge. It is so close to the bridge and so far below that it is difficult to see from the bridge itself. It can however be seen from the base of La Tour Tanguy, a tourist attraction on the west bank.

(14) Caen - (9.12) A MiG-21 can be found in the basement exhibit hall at La Memorial de la Paix. In addition, a Typhoon replica hangs above the ticket desk. Dedicated to modern warfare since World War One, the museum is open from 0930-1800 all year apart from the major Bank Holidays. Entrance is €18.30 per person.
