EDITORIAL

This is the end of another eventful year - there have been some interesting events but the major event of the year was the cancelling of all US Military participation in events that were non operational in character. This resulted in all military air shows and flypasts being cancelled from early in 2013 due to the sequestration problem created by the US Political Parties. It even spilled over into operational areas, with much of the USAF activities being restricted to operational flying in the Afghan and Iraqi areas and to training for deployment to these zones, units not involved in these activities were basically grounded for lack of funds. The USN grounded a number of Carrier Air Wings and cut back on carrier sailings! Let us hope that this problem does not happen again in 2014 - but I would not like to gamble on that not happening!

If you check the addresses above you will see that Moray has moved to Castle Donington - please make sure any surface mail goes to his new address.

Finally, from myself and Christine (she does all the important work making certain you get your magazine every month) and all the section Editors I would like to wish you all a Happy Christmas and a prosperous New Year!

COVER PHOTOGRAPH: Israeli DF F-16I 877 of 107 Sqn photographed at Ovda on November 25th during the Israeli Blue Flag exercise held there, which included participation from a number of other countries (Rod Burden)

BRITISH REVIEW

After my horrible computer problems last month, all is now up and running, so hopefully there is lots for you to read during this festive time, if time permits, so all I can say is I hope you have a great Christmas and a Happy New Year and hopefully you will still be with us next year which starts with a full unit run down as usual.....Mick Boulanger (Military movements is history, now and for our future)

RAF CHURCH FENTON -During 2012 a few Tucano T.1s aircraft were transported from Linton-on-Ouse to Church Fenton for disposal. Three of the aircraft have been tendered and transported during October 2013 to Bentwaters for exportation to the USA as spares. Identified so far are ZF344/344 (W/O 12.03.2009) and ZF409/409, there is one more possibly from Church Fenton which is so far unidentified (possibly ZF409/409 last noted 11/2010). These have been joined by another Tucano T.1, ZF267/267, which departed from Shawbury by road as long ago as 06/06/2007 to the Market Drayton area and then somewhere in Lincolnshire. They have all been exported to the USA on 22.11.2013.

The RCAF CC-130J activity during the month was support for six 409 Sqn CF-18s at Solenzara for Exercise Serpentex 2013 which took place between 25.11 and 06.12, unfortunately the fighters took the Southern route via Lajes.

The PC12/47E for the Afghan AF-Special Missions Wing, N387NX on 09.11 has been registered YA-1387ET. Another PC-12/47E was N383NX on 26.10 is now registered as YA-1383ET, c/n's 1387 and 1383.

U S Army items of note were the Wiesbaden RC-12K, 50152 on 12.11, which continued to Keflavik, so perhaps heading to the US for RC-12X conversion. The UC-35A on 17.11 was a long way from its base, Atsugi-Japan, and presumably heading back after rework. The two C-23Cs that arrived on 26.11 are the last ones in U S ARMY service. They are on their way back from the UNO in Sinai, and assigned to Detachment 2, D Company, 126th Theatre Aviation Company from the Virgin Islands Army National Guard. According to HQDA, the Sinai mission formally ended on 15.11, and the schedule was for them to be de-commissioned on 30.11 on their arrival in the U.S. But the aircraft obviously have other ideas. They arrived at Stuttgart on 18.11 from Aviano, and after a few false starts flew Stuttgart-Prestwick on 26.11, and remain there still (08.12) located inside a hangar. No actual unit marks are carried, just a round sticker on the wheel-wells reading 'Multinational Force and Observers' (red on white)

Finally, Chipmunk T.10 G-AORW (ex WB682) was very badly damaged during the storm on Thursday 05.12 when the aircraft was blown over.

OUT OF SERVICE – 1312

As another year comes to end I would like to thank everyone who has provided information throughout the year. I also appreciate the sterling work done by Dave Lee in proof-reading my section every month.

BRAZIL

Belo Horizonte (MG) – (11.13) Both aircraft that were displayed in the Shopping Del Rey mall on the Av. Pres. Carlos Luz have departed. T-6D 1606 went to Campinas (SP) for potential rebuild. Meteor F.8 4432 went for storage on a farm to the southwest of Francisco Beltrão (PR).

Fortaleza/Pinto Martins (CE) - (11.13) The military area is entered from the Avenida Borges de Melo some distance north of the runway. Four aircraft are preserved. The F-80C is outside the gate. The other three are about 200 m inside the gate, and visible from outside. The TF-33A was previously reported as 4325. Perhaps there has been an aircraft swap.

An AT-26 is nearby, outside a large building.

Tulsa AASF OK – (10.13) The serial of the OH-6A preserved at this facility just northeast of the IAP was read for the first time in many years in October. If so, it is not known when the change over took place. It *could* possibly have been some time around October 2005, when a stripped example was seen adjacent to the ramp, next to a compound of vehicles.
