EDITORIAL

This issue will be a few days late due to the Easter Holiday break taking an extra two days out of the production schedule at the printers - however, the May edition should be back on schedule.

Many thanks for the additional images sent in since my plea for more coverage from around the world in the last Editorial. This has been very pleasing and I trust it will continue as we get into the Air Show season in the Northern Hemisphere! There is an extra page of illustrations in the paper version of MAR this month as well as extra pages in the PDF version.

While on the subject of Air Displays, photo coverage would be much appreciated of the more interesting or colourful participants and reports of the actual aircraft taking part would also be very welcome. Please try and report the following details in your show reports - LOCATION (ie static/flightlines/hangar/flying only/etc), SERIAL/CODE/TYPE/UNIT (as much detail as possible on these vital areas), MARKINGS/SCHEME (details of any special schemes or markings carried). Please send in your reports (even if they do not meet all the requirements listed) as they can be added to other reports to make the overall picture as accurate as possible. Finally, do please send in your report and do not assume that someone else will - if everyone assumed that we would end up with no report!

COVER PHOTOGRAPH: Fond farewell! One of the two Tristars of 216 Sqn that flew the final operational sortie on March 24th - KC.1 ZD950 over ARA8 (Mark Young)

Closing date for the May issue is 08.05.14 Brian Pickering 15.04.14

BRITISH REVIEW

On 28th March 2014 an official disbandment parade took place at Lossiemouth, this was for 12 Sqn and 617 Sqn who officially disband on 01st April 2014. Sadly the poor weather on the day prevented a flypast by the BoBMF Lancaster. 617 Sqn will reform during 2018 when the Squadron moves to Marham to fly the Lightning II. For the record 12 Sqn reformed on 1st October 1993 and operated the Tornado aircraft for 21years both at Marham and Lossiemouth. 617 Sqn reformed on 1st January 1983 and operated the Tornado aircraft for 31years, again at Marham and Lossiemouth. In the beginning of the summer 2014 there will be a phased relocation of the two Typhoon Squadrons from Leuchars. One other Squadron will arrive at Lossiemouth, that being 2 Sqn from Marham who will convert onto the Typhoon. 15(R) Sqn will remain at Lossiemouth to fly the Tornado GR.4's until 2018.

Another disbandment parade took place at Brize Norton on 21st March 2014 when 216 Sqn disbanded, this being the end of the Tristar transport aircraft operations after more than 30 years service. Finally, the Official closing date for RAF Church Fenton was 31st March 2014 and the base is now up for sale.....Mick Boulanger (Military movements is history, now and for our future)
