EDITORIAL

This is another 64 page issue - with a large number of European Air Show reports helping to fill the pages!

Can I just make a plea here, if you are visiting a show (both in the UK and overseas) can you please send in a report as coverage can be sporadic! Sometimes we are inundated with reports from a show and then others we might receive one (or sometimes none at all - Karup being one in question!). If you are sending in a report please send in as much information as possible - eg serial, code, type, unit, special markings, location at the show and any other information as possible. Sometimes we receive a report which simply provides a list of serials - this is basically unusable unless we get other reports in from the same show. Also, with both show reports and other sightings please indicate if you are using data other than the mark one eyeball to reports what you saw - putting the "assumed" data in (brackets) is the easiest way of showing this.

Looking forward to next month's issue - there will be the UK reports from Fairford and Farnborough. As we go to print the big question is will the F-35Bs show up for Farnborough?

COVER PHOTOGRAPH: Czech Republic JAS-39C Gripen 9238 of 211 TL at the NATO Tiger Meet at Schleswig Jagel on June 23rd - the 2015 Tiger Meet is due to be hosted by 18-92 Filo at Konya AB in Turkey between 4-16th May (Rod Burden)

Closing date for the August issue is 08.08.14

BRITISH REVIEW

It is believed that the entire fleet of the grounded 2 FTS Vigilants and Vikings will be returned to Syerston from all Volunteer Glider Squadrons in the United Kingdom and will be completely stripped down and all components returned to the manufacture for re-living. When returned they will be as new. All the stored Vikings from Cranwell have been returned to Syerston. The hangars at Syerston are now out of bounds to everyone other than essential personnel. Due to the large amount of work two other locations will be used for the work. Abingdon and Linton-on-Ouse have been suggested. So it looks like the majority of gliders will fly again 'as new' but the first is not expected to be ready until next year.

Waddington runway will shut in September to have the hump taken out of it and a new perimeter track is being built around the airfield. It is scheduled to re-open in 11.2015, so no Airshow will be held in 2015, that is if ever the airshow does return there due to budgetary cuts. It is unconfirmed but it is thought that the Sentinels from 5 Sqn will go to Cranwell along with the 14 Sqn Shadow R.1s. The Sentry AEW.1s from 8/54 Sqn will go to Coningsby and the 51 Sqn Rivet Joint will go to Mildenhall.....Mick Boulanger (Military movements is history, now and for our future)

FLEETLANDS - More information has come to light on why Hawk T.1s are being transported by road to VAHS Fleetlands. QinetiQ at Boscombe Down have won a contract to carry out the Hawk T.1/A/W major servicing. The aircraft are completely stripped of spares and the fuselages are transported by JARTS to Fleetlands for paint stripping. Once that is done, the aircraft go back to Boscombe Down where the bare metal structure is inspected for corrosion, cracking, damage, etc. Any repairs are carried out as required. Once all inspections / repairs are completed the various sections go back to Fleetlands for repainting. There were currently five Hawks in varying degrees of major servicing at the moment XX191/191 from AM&SU Shawbury being one of them. Another was XX162, but has since returned to CAM, Boscombe Down in a new paint scheme

SPAIN

SERIAL NEWS: Updating the June @MAR news, we now know the Spanish serials for the first two ex USN SH-60Fs - Ex-BuNo 164451, c/n 70-1688, is now HT.23-13-10013 and Ex-BuNo 164454, c/n 70-1691, is now HT.23-14-10014.

Both cartographic CASA CN-235s from 403 Esc have returned to wear their former serials as soon as they have received their new dark grey overall colour scheme-they are now again T.19A-01/403-01 and T.19A-02/403-02, instead of TR.19A-01/403-01 and TR.19A-02/403-02.

UAV: Spanish military UAVs have been allocated Spanish designations and 5-digit serials. The Searcher Mk.III Spanish designation is NR.01; (one example being NR.01-08 10006) the RQ-11B Raven is NR.02 (example being NR.02-02A 10031 - the A indicates that an earlier variant is also on the inventory, probably the RQ-11A, but not allocated a five digit serial), and the Wasp AE is NR.03 (example being NR.03-04 10030).

EF-2000: Ala 14 was allocated 14 single-seat and 1 two-seat Eurofighters late in April 2014. The first single-seater to wear an Ala 14 code is C.16-31/14-01.

The Spanish AF lost their first Eurofighter when EF-2000A C.16-34/11-14 crashed at Morón AB on the 9th of June, with the pilot being killed.

BELGIUM

Balen – (6.14) CM.170 MT-29 is still on top of some containers in the Verreyt scrapyard. MiG-21PFM 4407 was confirmed as present, but it was not seen.

Hasselt/Kiewit - (6.14) The airfield has been redeveloped, and Early Birds and their aircraft have apparently moved elsewhere. Do27A-4 (56+95)/OO-VPH is stored in the Smidts Aero hangar.

Sprimont – (6.14) The fuselage of CH-53G (84+07) can still be found at the Outdoorcentrum Carriënta. The GPS in EMOOS (N50.48069, E5.66298) lead to a car park that is shared by various activity centres. When entering the car park turn right into a smaller car park belonging to Outdoorcentrum Carriënta (N50.48124, E5.66324). A track leaves the car park to the northeast - the track enters a tunnel that goes through a hill. The tunnel is approximately 500m long and is not lit - torches are needed. The helicopter is hanging up above the tunnel exit.

Theux/Laboru - (6.14) Based at this small field near Liege (just off motorway at Exit 7) are:

(33) Cazaux - (6.14) The Fire School training area was checked during the airshow – there were no changes to the list published in EMOOS 2014.

Stored and for sale in the Gendarmerie hangar were AS.350s F-MJCC/1916, F-MJCM/1952, F-MJCO/1917. C/n 1692 could be found stored in another hangar, behind netting. It was coded JCL on one side and JEB on the other.

(28) Châteaudun - (6.14) Several new aircraft have appeared on the German runway.

Mirage F1CR 636/112-NL (from hangar).

Mirage 2000N 304/116-CA, 344/4-BV (both from hangars).

1376/(AN)	Sikorsky HSS-1N	116/341-RZ	Sud Alouette II composite

Alouette IIs (1358/BEE) and A05 have both apparently moved on, fate unknown.

(31) Toulouse – Balma – A correction to EMOOS. The C-160F fuselage at the Centre d'Essais Aeronautique de Toulouse (CEAT) cannot be F47/F-BUFQ. At the Cazaux show in 1993 there was a photo of F-BUFQ being delivered to Cazaux for instructional use. It was still present in 1995, by which time the Toulouse machine had already appeared in the area. It is almost certainly (F50/F-BUFS).

(31) Toulouse/Blagnac – (6.14) Ailes Anciennes - Toulouse (AAT) has some new exhibits. Etendard IVM 06 arrived from Vannes during May. It was followed on 7 July 2014 by Fouga CM.170 103, formerly an instructional airframe with the UIUT Paul Sabatier in the city.

Ahlen (NW) – Correcting an error from last month, Bell 412 D-HHVV will have been the third aircraft to carry this registration (c/n 36082), which has no military history. AB.412 (DU-322)/D-HHVV (c/n 25676) went onto the Ugandan civil register at approximately the end of 2012.

Cottbus (BB) – (5.14) The Flugplatz Museum has acquired Su-22M4 (98+17)/14 from Manching. It is currently dismantled in the storage area.

Eslov – (5.14) Updating last month, UC-61A (43-14840)/SE-AWS is confirmed as still being based at Norrköping, so it was just visiting here.

Gothenburg/Säve – (6.14) The collection of Viggen cockpits held by the Aeroseum has often been the subject of confusion, mainly because most people seem to report them as whatever their database thinks they are, rather than actually trying to identify them.

A check of the four inside the cavern revealed the following:

(37305) Saab JA.37Di F17 c/n 305, camo c/s front fuselage, simulator
(37397) Saab JA.37Di F4 grey c/s, radio call D 20 front fuselage, on simulator conversion
(37404) Saab JA.37Di F21 c/n 404, grey c/s front fuselage
(37427) Saab JA.37Di F4 c/n 427, grey c/s front fuselage, simulator

A further one sits outside, with F4 marks. This is presumably either 37401 or 37405, both of which have been reported in the past. The museum website lists one as 37401, but does not identify all of their cockpits. 37401 is the favourite, as it last served with F4, whereas 37405 was an F21 machine.

Konya AB – (6.14) A visit to the base range complex proved very productive.

The main feature is a dummy airfield where ten F-100s can be found spread around.

To the southeast of the airfield is a storage area. It contains two groups of aircraft.

The first group contains assorted scrap of about 9 F-84s/F-100s, all dismantled, shot up, and badly faded. Identified were:

The tail of an F-100 with __44__ in the serial is also present. This could fit the aircraft coded 3-__4.

The second group, just to the south, contains the fuselages of 9 F-100s and 11 RF-84Fs. All are more or less complete.
