EDITORIAL

Thank you for the continuing subscription arrivals - no one has said they are not renewing for 2015 yet and we have had some new subscriptions, some from previous lapsed members and others who are completely new!

Another 64 page magazine with about 15 pages from the US and Foreign sections which have been held over for the December issue due to lack of space. It is a nice feeling to know that there is so much news and information around.

The October issue of @MAR featured the latest USAF ORBAT from Tom Kaminski - essential if you have an interest in the largest Air Force in the World. If you do not already subscribe to @MAR please send me an email to "brianmap@btinternet.com" and I will send you a sample copy.

MAR PDF and @MAR Files for 2014 will be deleted from the MAR web site in January to make way for the new 2015 issues, they will be removed on the following dates so please ensure you have downloaded all the files by then -

MAR PDF Files will be removed on Jnaury 10th @MAR Files will be removed on January 25th

BRITISH REVIEW

The Ministry of Defence has announced that there will be a lot of new changes being made over the next few years with the RAF Training aircraft. They have appointed a consortium called Affinity as the preferred bidders to supply the new Military Flying Training System which will result in three new types of aircraft being acquired. They are the Grob G-120TP operated from Barkston Heath to replace the Grob Tutors, Beechcraft T-6C operated from Valley to replace the Tucano T.1s and Embraer Phenom 100 operated from Cranwell to replace the King Air 200. This does not look good for RAF Linton-on-Ouse's future, but time will tell.

Another announcement was made which stated the proposed withdrawal of Sentinel R.1 during 2015 has been postponed and the aircraft will be converted for maritime operations. Finally the last Tornado GR.4s operated by 31 Sqn at Kandahar, Afghanistan has departed on 11.11.2014. The withdrawal from Kandahar marked the end of five years of fast jet support for the NATO Operations.....Mick Boulanger (Military movements is history, now and for our future)

Notes: Tucano T.1 ZF140/140 from 1 FTS Linton-on-Ouse which arrived on 14.10 developed a fault which resulted in the aircraft being hangared, the aircraft finally departed to Linton-on-Ouse on 04.11. The Ecuador Navy CN-235M-100 ANE-202 was a welcome visitor here and was towed into the Polar hangar for a two week stay on what is thought to be radar mods/upgrade. The large influx of RCAF aircraft this month was in support of the CF-118s that flew to Kuwait via Lajes.

Hawk T.1

During September there was only one movement to the AM&SU Shawbury that being an unidentified Red Arrow operated Hawk T.1A on 05.09. The aircraft is known to have come from Exeter and the only two Hawk T.1As at Exeter on that day were XX202/CF from 100 Sqn Leeming and XX218/218 from 208(R) Sqn Valley. XX202/CF has been operating this month at Leuchars, Prestwick and Warton, so it isn't that one. Then if you go back to RIAT Fairford during 2014, XX218/218 was being operated by the Red Arrows as spare aircraft but in full 208(R) Sqn colour scheme. So I am assuming that it is XX218/218 that went into store. Has anyone seen XX218 recently?

During October there were two aircraft movements at AM&SU Shawbury. On 03.10 an unidentified Hawk T.1 from the Red Arrows

at Scampton arrived for storage as "RFR7281". The other movement was either 28th or 29th October when a unidentified Hawk T.1 departed storage to an unknown location, more details required.

Coronet East 021 saw the arrival here of four Mi ANG 107 FS A-10Cs from Lajes as **Mazda 31-34** to take part in Exercise Combined Resolve III. Aircraft involved were.

The Mi ANG KC-135T which arrived on the 22nd was still present at the end of the month.

D/52 AVN: C-12U 84-0165 (CWMS equipped) returned from maintenance in the USA at the end of October and 84-0160 was noted passing through Prestwick on November 2nd as "Duke 69" as may have been heading to the USA for maintenance.

1MIB: RC-12X 91-0518 arrived on October 10th with an "Argus" call sign but then departed for the USA on the 20th as "Argus 05"

- was this just a 1 MIB crew ferrying it to the USA or has it transferred to the unit and will return after maintenance to Wiesbaden? Time will tell! Then on 26.10 RC-12X 91-0516 arrived from Afghanistan and is still present.

Then on 23.10 recently upgraded RC-12X 85-0152 arrived from USA with an Argus c/s in company with a Kean based C-12U (see visitors), they then both departed together on the 31st so perhaps it was on delivery to 3 MIB? (Another possible 3 MIB delivery was RC-12X 92-13124 noted at U Tapao in Thailand on October 30th as "Glare 25").

The three UH-60As from C/1-214 AVN that were parked on the ramp for some time - 82-23754, 82-23755 and 82-23756 - were joined by 84-23951 & 85-24422 on October 1st then 87-24645 on the 8th, 85-24437 on the 15th and 86-24552 at a later date. Most of these departed in late October by sea to the USA. Then on the 31st 79-233330 arrived and was still present together with two of the above that did not depart at the end of October.

The two US Army Reserve UC-35As 99-0100 (white) and 98-0010 (grey) are both missing their horizontal stabilisers as does based example 99-00102. It appears they are awaiting spare parts!

FRANCE

(01) Ambérieu – Richard Bowden has been busy again sorting out log anomalies. The preserved Super Mystere B2 marked as 136/12-YH here is in fact 13. The real 136, in Tiger c/s, was WO at Cambrai on 17 July 1972 and was seen dumped there in August 1973 – it had expired by the end of 1974. Later, 13 was painted in the same tiger scheme at Rochefort, even collecting the serial of the original aircraft (noted 1980-1982). It ended up at Ambérieu after a spell at Varennes sur Allier.

(69) Lyon/Corbas - (9.14) Noted on the aero club side were:

MZ221	Auster J/1	not ex mil F-PAGD	(24705)/DPF	Cessna L-19E	F-GDPF
189	Dassault MD 312	F-AZVG	(232)	Dassault MD 312	dismantled, outside
	Yakovlev Yak-18T	RA-3315K	stored		

Some minor changes to the Espaces Aéro Lyon-Corbas collection were noted:

MH 1521M 299/F-GHUO is now flying again and has departed (noted at Vichy in Jul14). Mirage 3R 335 is now coded 33-NC. The expected Super Mystere B2 is due to come from Lyon/Mont Verdun, and will therefore be 148/12-YH.

(21) Nuits Saint Georges - (9.14) Both known residents were confirmed in September.

(43-1068) Piper L-4B USAAF c/s F-PFQA burned frame (44-79858) Piper L-4H yellow c/s F-PHOQ
F-PFQA is now a burned-out frame, having been destroyed in a hangar fire.

(30) Saint-Gilles – (9.14) Two helicopters were noted at the small heliport here. Both were listed as “Base Unknown” in EMOOS 2014.
